

## 1. MENU

---

In "big screens", we have the Mega Menu:

In "mobiles", we have:

Is it possible to have always the "mobile version"?

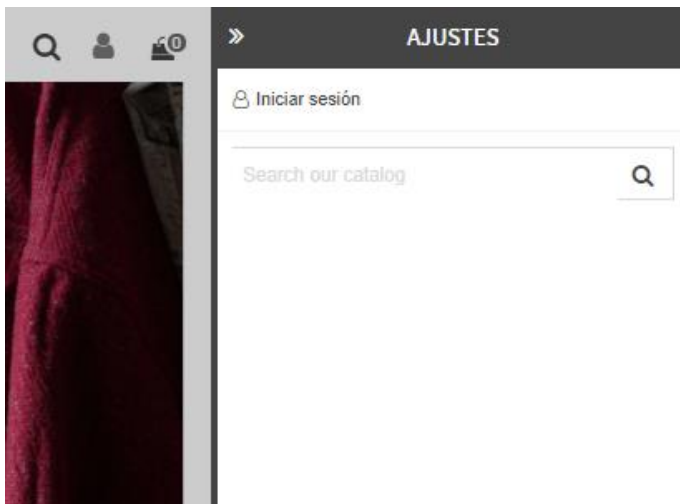

I would like to have in "big screens" AND "mobiles", the same presentation:

## 2. MOBILE MENU

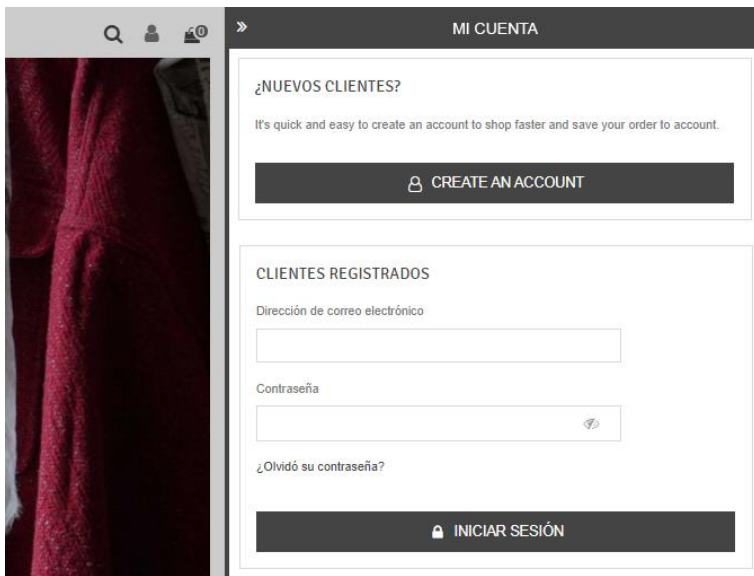

---

In "mobiles", if I click on , a window opens:

Is it possible to change the contents of the window "Iniciar Sesión/Search our catalog" in "email/password/entrar + Create account link"?

Like that (next page):

If it's possible, I don't understand how to change it.

### 3. PRODUCT IMAGE SIZE

---

All product photos have the same size.

Is it possible to have different sizes of products images, depending on the category?

For example:

Sneakers: 1200x800

Dresses: 800x1200

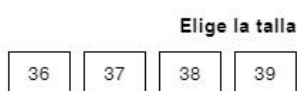

If it's possible, how?

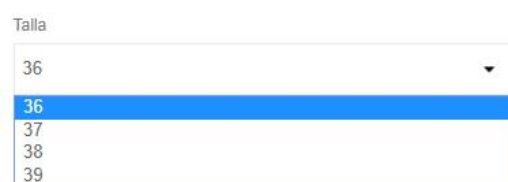

### 4. PRODUCT SIZE

---

Is it possible to display like:

Instead of the select list:

If it's possible, how?
